A close-up photograph of a rear camera lens mounted on a vehicle's bumper. The lens is circular with a multi-layered, iridescent coating that reflects light in shades of red, orange, and purple. It is set within a dark, recessed housing. To the right of the camera, a portion of a fog light is visible, featuring a clear lens and a metal housing. The bumper itself is a light-colored, textured plastic. A semi-transparent watermark with the letters 'MOTORLAND' and a stylized 'M' logo is overlaid across the center of the image.
